

Put your enthusiasm for aviation and public service into action—join the Airport Information Reporting for Oregon (AIRO) program.

Oregon Department of Aviation (ODA) offers volunteers an opportunity to contribute their aviation expertise to assist with **reporting** on the safety, security and maintenance conditions at a state sponsored airport.

A new approach in supporting Oregon's State Airports

Given budgetary challenges and government spending restrictions, this program forms public-private partnerships to ensure we enhance safety and improve the physical condition at these public use airports.
